DETAILED ACTION

Allowable Subject Matter

1. Claims 1 – 11 are allowed.
2. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in a combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in independent claim 1, 3, 5, and 6, for example, which include a groove that is being formed in a surface thereof to extend from a first end of the substrate toward a second end of the substrate opposite from the first end of the substrate but not to the second end of the substrate and an adhesive is applied to a portion of the at least one slope surface but not to the another slope surface of the groove and a cylindrical – shaped lens is adhered to the portion of one slope by the adhesive while lens is not adhered another slope of surface .
3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
